#### **Far East Global (HKSE code: 830.HK) Announces Awarding HK\$200 Million Building Façade Contract in Canada**

(Hong Kong, 9 May 2010) ---- Leading global high performance building façade engineering solutions and services provider, **Far East Global Group Limited** ("Far East Global" or the "Company") (HKSE code: 830.HK) announces today that it has awarded a high performance building façade engineering services contract from PCL Construction Management Inc. for SAIT Polytechnic's new Trade & Technology Complex ("TTC") in Calgary, Canada, valued at approximately HK\$200 million. Under the contract, Far East Global will provide engineering services include building façade system design, engineering, procurement, construction, maintenance, and project management services.

Mr. Brad Huang, Chairman and Executive Director of Far East Global commented, "We are proud to have an opportunity to participate in this project. The project is semi-government funded and therefore partners are carefully chosen. Leveraging on our strong track record and rich experience in building façade, especially our fascinating work for two landmark projects in Canada, i.e. Trump International Hotel & Tower and Shangri-La both in Toronto. We also impressed the developer and main contractor with a high performance, cost effective building façade solution and our thorough understanding of LEED Certification. This contract furthers our position as a world leader in high performance building façade engineering."

TTC will be comprised of three buildings providing the campus with more than 700,000 square feet. Design of the buildings emphasizes an innovative, flexible and more integrated approach to trades and technical training – intended to reflect real life workplaces.

#### **About Far East Global Group Ltd**

Established in 1969, Far East Global Group Ltd., through its subsidiaries, provides engineering, procurement, construction, maintenance, and project management services worldwide. It serves a global customer base that is distributed in various parts of the world including the US, Canada, the Middle East, the PRC, Hong Kong, Macau, Singapore, Japan and South America. It provides its customers with integrated building façade solutions that are customized to meet the international technical specifications and performance requirements of the projects. Its key services include building façade system design, materials procurement, fabrication and assembly, performance testing and installation.

Its key worldwide landmark projects such as:

- Venetian Resort Hotel in Macao, which is one of the largest resort in Asia;
- Cosmopolitan Resort Hotel & Casino in Las Vegas;
- Shanghai IFC in China;
- Burj Khalifa in Dubai, which is the tallest building in the world;
- Marina Bay Sands Integrated Resort in Singapore;
- Trump International Hotel & Tower in Toronto, Canada; and
- Costanera Centre in Santiago, Chile, which will be the tallest building in South America.
